Dotser Agri and API technologies provide key benefits by automating product, pricing, sales and stock updates in one central platform

■ **Saves time and money**

- through automation of a process previously manually executed with paper documents.

■ **Improves efficiency and productivity**

- because more business documents are shared and processed in less time with greater accuracy.

■ **Reduces errors through rigid standardization**

- through rigid standardization, which helps to ensure information and data are correctly formatted before they enter business processes or applications.

■ **Improves traceability and reporting**

- because electronic documents can be integrated with a range of IT systems to support data collection, visibility and analysis.

■ **Supports positive customer experiences**

- by enabling efficient transaction execution and prompt, reliable product and service delivery.

What our customers say

AUTOMATE, INTEGRATE and SCALE are Dotser's three descriptive words for their business offering, and that is exactly what the Dotser's software and integration solution enabled us to do.

We first approached Dotser looking for an ecommerce and website management platform, and then a solution to integrate with our IBCOS dealer management system. Dotser's systems and software has enabled us to automate our stock updates, reduce costs, and scale the business. We find Dotser very approachable, skilled and solution-orientated, always providing a solution for any concern we have.

I have no hesitation in recommending Dotser and their Dotser Agri platform to any agri dealer out there..'
