Dotser Agri* Application Programming Interface (API)

HOW IT WORKS

* Dotser provides software license and support for integrating multiple systems - full or partial solutions are available depending on requirements.

Key business benefits that Dotser's API technology delivers through automation of product updates

■ Saves time and money

- through automation of a process previously manually executed with paper documents.

■ Improves efficiency and productivity

- because more business documents are shared and processed in less time with greater accuracy.

■ Reduces errors through rigid standardization

- through rigid standardization, which helps to ensure information and data are correctly formatted before they enter business processes or applications.

■ Improves traceability and reporting

- because electronic documents can be integrated with a range of IT systems to support data collection, visibility and analysis.

■ Supports positive customer experiences

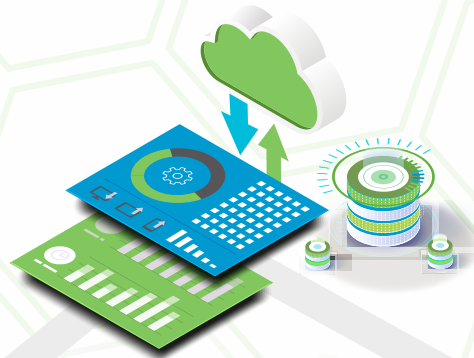

- by enabling efficient transaction execution and prompt, reliable product and service delivery.
